Please note that these lists are subject to change. If you are unsure if the jurisdiction in question is classified as equivalently regulated please request confirmation from your Bedell Cristin contact

***ULTIMATE EFFECTIVE CONTROL

Where the trustee is a legal person and that legal person is not a regulated trustee service provider in an equivalent jurisdiction we are required to identify those individuals that exercise ultimate effective control of over the company. In this regard would you please provide an individual profile form for any individual(s) exercising ultimate effective control over the company. Ultimate effective control can be identified as follows:

The individual(s) who ultimately controls the legal person through ownership; or, if no such person exists or can be identified;

The individual(s) who ultimately controls the legal person through other means; or, if no such person exists or can be identified;

The individual(s) who holds the position of a senior managing official of the legal person.

For lower risk relationships, a general threshold of 25% (10% for BVI and Cayman) is considered to indicate a material controlling ownership interest in capital. However, where the distribution of interests is uneven the percentage where effective control may be exercised (a material interest) may be less than 25% when the distribution of other interests is taken into account, i.e. interests of less than 25% may be material interests. Bedell Cristin may need to request further information or documentation in this regard if any higher risk factors are identified
