*** MATERIAL CONTROLLING INTERESTS

Each individual with a **material controlling ownership interest** in the capital of the person (through direct or indirect holdings of interests or voting rights) or who exerts **control through other ownership means**.

To the extent that there is doubt as to whether the individuals exercising control through ownership are beneficial owners, or where no individual exerts control through ownership, any other individual exercising **control** over the person **through other means**.

Where no individual is otherwise identified under this section, individuals who exercise **control** of the person **through positions held** (who have and exercise strategic decision-taking powers or have and exercise executive control through senior management positions).

For lower risk relationships, a general threshold of 25% (10% for BVI and Cayman) is considered to indicate a material controlling ownership interest in capital. However, where the distribution of interests is uneven the percentage where effective control may be exercised (a material interest) may be less than 25% when the distribution of other interests is taken into account, i.e. interests of less than 25% may be material interests.
