Buy-side institutional and family office advice on Cayman funds

Alongside our work as sponsor-side offshore counsel to investment funds, we also have specific expertise of buy-side advice – advising institutions, family offices and high net worth individuals on their investments into Cayman Islands funds.

We work with investors, typically alongside onshore counsel, based in the US, Canada, the Middle East, Asia and UK, to independently advise on matters of Cayman Islands law impacting fund documents including the jurisdiction's evolving legal and regulatory framework.

Our experience is that Sovereign Wealth Funds, pension funds, funds-of-funds and family offices, whether mindful of their own fiduciary requirements and/or the evolving nature of offshore

regulation, are increasingly seeking independent counsel on strategic investments, including risk analysis and jurisdiction-specific advice on risks and liabilities.

Where investments go 'bad' our team is also able to provide strategic advice to investors on available jurisdictional options against funds they are invested in.

The Bedell Cristin team's experience in this area comes from many years of offshore and onshore practice – our Cayman Islands funds partners have more than 35 years' experience in the jurisdiction, and worked in the Americas, Europe and the Middle East before moving offshore.
